Foreword

The Arizona Genealogical Advisory Board, Inc. (AzGAB) is a statewide non-profit organization.

Our mission is to facilitate education and communication among organizations and individuals who are dedicated to the promotion of genealogy and history.

Our goal is to:

- * improve communications among genealogical societies, libraries with genealogical collections, professionals, and the general public.
- * foster an atmosphere for the opportunity to educate its members and the genealogical community with regard to information resources, standards, and ethics.
- * facilitate the dissemination of information to its members with regard to the availability, the use, and the preservation concerning multimedia.
- * keep its members informed of the changes in legislation with regard to the preservation of records and the public access to those records. AzGAB shall express its concern regarding these issues where it is appropriate.
- * promote such special projects as the organization approves.

Membership is open to any public or private society, group, library, museum, professional or individual researcher, and family historian sharing the purposes of this organization without taking autonomy from any organization or individual.

Because improving communications is so important, AzGAB is issuing its sixth *AzGAB Speakers Bureau Directory* containing 13 names of Arizona speakers, as well as national speakers. We hope the directory will be of assistance to those who are program chairpersons or seminar planners.

Please check the Topic Index and the Subject Index for specific genealogical subjects.

We included national speakers as a service to AzGAB member societies. Many seminar planners are faced with choosing suitable speakers for their annual conference. The national speakers included in this directory have given seminars in Arizona within the past 5 years. Most of them have listed the Arizona sponsoring society in their listings of “recent engagements”. Please feel free to contact the previous sponsoring society for information.

I thank the speakers who took the time to complete the form, Susi Fathauer and D. Sue Kissel for some speaker contact information, and to Betsy Howard, AzGAB Secretary and Directory Co-Chair, for formatting the directory. The AzGAB Board hopes that this directory will be a well-used source in your society! If AzGAB can be of assistance to any genealogical society, please contact any of the officers or visit our webpage at www.azgab.org/. We would love to hear from you!

Qualifications: Certified Genealogist. Teacher, lecturer, writer, researcher. My lectures and classes are designed to help researchers hone their skills and look at their problems objectively. Most genealogical problems can be solved by review and analysis. Often the very clue needed is buried in the information we already have. When research begins with a plan, the focus is on success not failure. I love a challenge—for this reason the women in my ancestry have become the heart of my research. Comments: I travel to Arizona frequently (area of Heber and in the Valley). I travel in an RV so no overnight accommodation beyond a place to park. My style is unique and would enjoy the opportunity to share my programs with your society. I'm experienced in doing a number of presentations in a single day (or weekend) and strongly suggest that, if you wish me to come to speak to your group, you consider booking me for more than a single presentation, or work with other local societies to have me come to present to more than one group within a single week or similar period of time. I am able to tailor-make a presentation or seminar for your group's particular interests/needs. Thank you for your consideration.
